

BAYLOR II

BILLIARD TABLE WITH STONE RAILS

We've taken what is already our most popular model pool table and made it even more unique. The Baylor II with Stone Rails is designed for the "Modern World" and is sure to be the center of attention for home game rooms or commercial gathering spaces. It features: sleek 5" x 5" hardwood legs, hardwood side panels and enclosed pockets. But what really makes this table unique is the first of its kind quartz rails. These rails make the top of this table virtually indestructible and perfect for commercial locations.

The rails are available in black or white with grey veining and can be used on either our Raven or Frost White cabinets. With a stone rail pool table you will truly have a one of a kind masterpiece on your floor that still plays like a professional pool table..
